ITM University Gwalior **August 2025 – September 2029**
Bachelor of Technology in Computer Science *Gwalior, MP*

Technical Skills

Languages: Python, Java, JavaScript, SQL
Developer Tools: Git, GitHub, VS Code, Docker, Linux
Technologies/Frameworks:React.js, Tailwind CSS, MOngoDB, Express.js, Firebase, NumPy, Pandas, Matplotlib

Experience

Freelancer **May 2025 – Present**
Web Developer and Graphic Designer *Gwalior, Madhya Pradesh*

- Delivered responsive and customized websites for 10+ local business clients, translating business requirements into functional and user-friendly digital experiences.
- Completed graphic design and promotional projects for 20+ clients, creating posters, marketing creatives, and brand-focused visual content tailored to client requirements.
- Partnered with 3 schools to design promotional campaigns and event creatives, supporting institutional events, student engagement, and outreach initiatives.

Projects

Study Group Finder | *React.js, Tailwind CSS, Firebase* **Septempber 2025**

- Developed a full-stack student collaboration platform that enables users to discover and connect with study groups based on shared academic interests and learning goals.
- Implemented secure user authentication, profile management, group discovery, and group creation workflows to streamline peer-to-peer academic collaboration.
- Designed a responsive and intuitive user interface with reusable components, ensuring a consistent experience across desktop and mobile devices.
- Integrated real-time cloud data management and authentication to support dynamic user profiles, group information, and scalable application workflows.

PathGen - Skills Roadmap Generator | *HTML, Tailwind CSS, JavaScript* **January 2026**

- Developed an AI-powered learning roadmap platform that generates structured and personalized learning paths based on users target skills and career roles. Structured learning journeys into progressive stages with curated resources and estimated learning timelines, enabling users to follow goal-oriented technical roadmaps.
- Designed skill-based and role-based roadmap discovery for technologies and career paths including Python, React, Docker, DevOps, AI/ML Engineering, and Data Science.
- Built a responsive, modern user interface with roadmap exploration, search functionality, dark/light theme support, and intuitive navigation across technical learning paths.

Skillora AI – AI-Powered Resume Builder | *React.js, Tailwind CSS, OpenRouter AI API Integration* **February 2026**

- Developed an AI-powered resume-building platform that enables users to create structured and professional resumes through an intuitive, guided interface.
- Implemented dynamic resume customization and real-time preview functionality, allowing users to efficiently edit and visualize resume content.
- Integrated AI-assisted content generation to help users improve resume sections, refine descriptions, and create impactful, role-specific content.

Leadership / Extracurricular

Smart India Hackathon **September 2025**
Team Lead *ITM University Gwalior*

- Developed and deployed a digital Alumni Data Management and Engagement Platform, enabling centralized alumni records, networking, and institutional engagement.
- Led a 6-member development team, coordinating task allocation, technical implementation, and project delivery within hackathon timelines.
